Pak lifts import ban on yarn, cotton from India

RAJENDRA JADHAV & ASIF SHAHZAD
Islamabad/Mumbai, 31 March

Pakistan lifted a nearly two-year old ban on Indian sugar and cotton imports, government sources said, a step towards reviving suspended trade between the two nuclear-armed neighbours.

Pakistan's Economic Coordination Council, a top decision-making body, on Wednesday allowed the private sector to import 0.5 million tonnes of white sugar as Islamabad tries to keep soaring domestic prices in check, government officials told Reuters. Pakistani buyers have already started making inquiries about buying Indian sugar and cotton, which is being offered at lower prices than supplies from other countries, five dealers said.

India is the world's biggest producer of cotton and the second biggest sugar producer. Exports to its neighbour will reduce surpluses that are weighing on its local markets, while helping Pakistan to lower soaring sugar prices ahead of Ramadan.

The push comes amid a gradual thawing in ties between the two neighbours, which have fought three wars since gaining independence in 1947. The militaries of both countries released a rare joint

statement last month, announcing a ceasefire along a disputed border in Kashmir.

"Enquiries for sugar and cotton are going on for price checking," said the India head of a global trading firm, who declined to be identified due to company policy.

Pakistan has been looking to tap the international market for sugar, floating two tenders for 50,000 tonnes in the last month. It rejected bids on both tenders in March.

The first tender offer was priced at \$540.10 per tonne on a cost and freight basis (C&F) and the second at \$544.10 tonne, European traders said.

India is offering sugar at a discount compared to supplies from Thailand, said a dealer with global trading firm.

"Pakistani traders have been buying Indian sugar through their offices in Dubai for Afghanistan. If Pakistan allows imports from India, they will unload shipments in Pakistan," the dealer said.

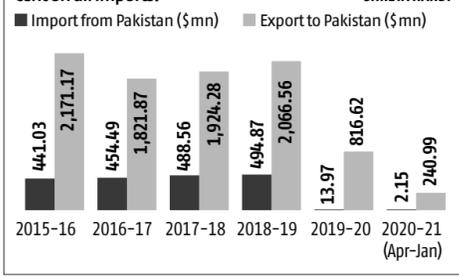

Traders say they have been offering Indian white sugar at \$410 to \$420 a tonne on a free-on-board (FOB) basis, far lower than the domestic price of \$694 quoted in Pakistan.

Indian exporters could also ship via sea or land, the dealer said, noting this gives them a big edge given tight global container shipping markets.

INDIA-PAKISTAN TRADE VIEW

Amid tensions between India and Pakistan over the last few years, exports from India witnessed a sharp fall of over 60 per cent year-on-year in 2019-20. This came in the backdrop of Pakistan suspending bilateral trade with India in August, 2019 owing to India's decision to scrap Article 370. Cotton, sugar, organic chemicals, pharmaceuticals, iron and steel, and plastic are top exported items to Pakistan. Similarly, India's import from Pakistan plummeted 97.18 per cent year-on-year in 2019-20 after the Pulwama attack in February 2019. Thereafter, India also withdrew the most favoured nation status to Pakistan and imposed a customs duty of 200 per cent on all imports.

Madras HC asks Centre if it proposes to bring law on making rational promises in poll manifestos

TE NARASIMHAN
Chennai, 31 March

The Madras High Court came down heavily on political parties for distributing freebies to people as a poll promise. The high court posted nearly 20 questions to various government departments and the Election Commission. These include whether the Centre proposes to bring a law on making rational promises in elec-

tion manifestos, what steps were taken by the commission to scrutinise such manifestos and the action taken against political parties, among others.

The order, passed by Justice N Kirubakaran and Justice B Pugalendhi, stated that political parties should be prohibited or prevented from making election promises, which are capable of adding burden on the public exchequer. Otherwise, for raising

finances, the state has to increase the number of liquor shops, it said.

The order stated that election manifestos were not so popular about 30 years ago, and only in the past two decades, did they gain popularity among the masses

This is because political parties compete with each other, by offering free gifts and freebies in various forms and kinds. They promise the

people better development and a comfortable life.

The kinds of freebies and money given during festivals, though it may be seen as government taking care of the peoples' needs, in fact are making the people lethargic and dampening the working culture, it said.

In the process, the honest taxpayer is made a mute spectator of these expenditures by the government.

► FROM PAGE 1

Cabinet...

A total of ₹9,040 crore over six years have been allocated for larger producers against their incremental sales, with the biggest chunk of ₹2,169 crore earmarked for 2025-26.

Further, ₹1,500 crore will be offered as an incentive to large manufacturers for their efforts in brand building in foreign markets and marketing initiatives like in-store branding and shelf-space renting.

A senior government official said several domestic and global companies like Nestlé, Mother Dairy, Amul, ITC, Hindustan Unilever, and Kellogg have already expressed willingness to avail of the scheme.

"The PLI scheme will be a game-changer, in boosting food processing investments, agri-exports, farmer incomes, and building Indian brands for global markets," said Sanjiv Puri, chairman, ITC.

Varun Berry, MD, Britannia said, the scheme will provide much-needed boost to the food processing sector and also promote growth and investments. Sudhir Sitapati, executive director, foods & refreshment at Hindustan Unilever, said as one of the largest food processing companies in India, it will readily assist in making the scheme a success.

Amul is keen on setting up additional production lines for mozzarella cheese.

Auto-debit...

Leading private banks had been sending messages to customers that they would have to transact on their own for services they want to avail, instead of banks deducting the fee automatically on their behalf.

The new norms that were supposed to kick in from April 1, for which the RBI had issued a notification in August 2019, entailed banks to check with customers by notifying them and getting their approval for recurring payments through debit and credit cards before processing such transactions.

Pune reels...

Municipal officials say these strategies were adopted to make sure that economic activity does not get affected.

Pune is also trying to ramp up its vaccination drive, which is one of the most effective weapons to check the spread of the pandemic. The city has vaccinated 10 per cent of its population, and more than 310,000 people have taken at least one dose of the vaccine.

But the vaccination effort faces two hurdles: that of demand as well as supply.

The Yugpurush Chhatrapati Shivaji vaccination centre is nearly deserted in the post-lunch session on the day of Holi. "We had a full house in the morning session, but not many people have come in the afternoon due to Holi," says Sumit Meshram, the representative doctor at the municipality-run medical centre. The centre vaccinated 146 people that day, compared to 200 on an average on other days in March.

There is some degree of vaccine hesitancy among people, too. The fear of side effects also keeps many from coming forward to take the shot, says Dr Aditya Phadke, who oversees vaccination at Premchand Oswal Hospital, another municipal vaccination centre in Pune.

"I have been trying to educate those who are coming in, so they can communicate the message to their friends and neighbours when they go back," he said.

Municipal officials say that they are making sure that all available vials are used up at each vaccination centre.

"Our capacity to vaccinate, including that in private hospitals, is quite substantial. For example, Deenanath Mangeshkar Hospital can vaccinate 1,000 people a day, Kamala Nehru Hospital can do 1,100. But the availability of vaccines is not up to that mark," says Vaishali Jadhav, assistant medical officer, PMC, told Business Standard.

Jadhav says that vaccines are being supplied once in three to four days, but the city needs much more.

Meanwhile, the pandemic is raging. For the Pune district as a whole, which has a considerable rural population as well, the second wave has been worse than the first. While the daily caseload went from 400 to 6,000 in 86 days in 2020, it has gone up from 400 to more than 8,000 in less than 50 days this time. No one knows when the cases will start declining.

Inflation...

The CPI rose to 5 per cent in February, from 4.1 per cent in January, because of increased

food and fuel prices, which jumped 3.87 per cent and 3.53 per cent, respectively.

With the 2-6 per cent inflation mandate in place, the six-member MPC, headed by the RBI governor, met 22 times. The MPC is again scheduled to meet in the first week of April with an unchanged mandate.

According to the mandate, if the RBI fails to keep inflation within 2-6 per cent for three consecutive quarters, it has to write to the government to justify the reasons for it. However, 2020 was taken as an exception because of the pandemic and extra accommodations needed to tide over it. Inflation remained above the target range for most of it.

Small savings...

"This mirrored the moderation in interest rates in the wider economy seen over the past year," Nayyar added.

The cuts are fairly steep and will hit investors hard, especially in a year when the completely tax-free nature of Employees Provident Fund (EPF) has also changed, especially for high income earners. Experts say that the practice of offering higher than market rate of interest will gradually be done away with and this is a reality that investors will have to accept. "This was inevitable since the government has been indicating for some time that rates on small savings instruments would be aligned to the yield on the 10-year G-Sec," says Deepesh Raghav, founder, PersonalFinancePlan.

Among alternatives, investors may look at tax-free bonds from the secondary market. "The yields on these instruments are around 4.5 per cent, but there is no limit on how much investors can invest in them. On PPF there is a limit of ₹1.5 lakh per annum," says Dhawan.

Investors who are willing to take some risk may also opt for medium to longer duration bond funds. Medium duration funds have given a return of 7.25 per cent over the past year while longer-duration funds have returned 7.64 per cent.
