

ADC Structured Cabling Solutions

Category 6_A RJ45 S/FTP Patch Cords

Issue 2

The Cat 6_A RJ45 (S/FTP) patch cord is used at the work area or in the Data Centre/communications room.

The high performance plug is designed with an integrated strain relief boot that prevents the cable from moving at the termination point when the cable is flexed. The strain relief boot also ensures that the correct bend radius is maintained.

Designed for patching between two RJ45 outlets in a Category 6_A network. Copper conductors used are stranded and compacted to a near-round shape for optimal signal strength.

Features:

- Wired to 568B configuration. Cat6_A
- RJ45 plugs both ends.
- Anti-snag feature on RJ plug clip.
- Category 6_A performance.
- Available in multiple lengths (refer to ordering information).
