

# ADC Structured Cabling Solutions

## Category 6 Dynamic Angle Right/Left Patch Panel

Issue 2

Back view with cable management bar

The ADC Structured Cabling dynamic angle right/left panels offer superior performance and flexibility. Unlike fixed angle panels, ADC's patented solution combines the ability to dynamically angle connections either right or left in a low profile. The 45 degree silver plated IDCs can be punched down with either a standard Krone insertion Tool or 110 termination Tool.

### Features:

- Patented angle right/left eases stress on patch cords allowing for easy cable management
- Low profile dynamic angling allows for greater flexibility and use in cabinet environments
- Category 6 component compliant TIA/EIA 568-B.2-1
- UL 1863 certified
- Wire can be terminated with either a KRONE insertion tool or 110 tool
- 45 degree silver-plated IDCs provide secure, reliable gas-tight connection
- Includes adhesive paper labels for station identification
- Universal wiring label for easy termination of either T568A/B
- Patch panels are designed to support Gigabit Ethernet transmission speeds
